

The Division of Student Affairs and in coordination with Dr. Naser Al-Huniti sponsored student field trip as part of the planned activities in “Mechanical Engineering Lab II” course to the Jubail Technical Institute (JTI) in Jubail Industrial City on 28 April 2010. The aim of the visit was to familiarize students with some of the latest testing and training techniques and facilities in the institute. The field trip was in part to help foster relations between PMU and JTI and the academic community at large.
