

Get Together Event

“**Campus Life**” administered by the **Division of Student Affairs**, held a “**Spring Get Together**” on 4 May from 10 a.m. to 2 p.m. in the atrium of the **Male Campus Core Curriculum Building**. The “**Get Together Event**” was designed to encourage students to become involved in campus activities by joining student clubs and organizations.

The atrium was full of interesting activities decorated with attractive booths from different clubs and organizations, supporting the event’s theme “**Get Involved**”. Students stopped by to check out the booths and get information. Some students played with plane simulators, some played chess, some participated in the fencing match, some signed up for clubs they liked, and others pondered getting involved. Dr. Shaikh Nassar, Vice Rector of Academic Affairs paid a surprise visit to the event. He spoke to representatives of different clubs and organizations, and tried the plane simulator. “I really enjoyed the event” he remarked and wished everyone the best of luck for the remainder of the day. Several Deans and faculty members were seen walking around the booths during the day.

Many thanks to all those who took time out from their studies to promote the student clubs and organizations and make the **Get Together Event** a resounding success.
