

# COMPUTER LAB

We have two computer labs, (a) first one is a general purpose computer lab with 18 PCs accessible to students throughout the day, this lab is also used to conduct training, tutorial sessions and exercises for application software. (b) the second computer lab is in the measurement lab which is used to provide training about GIS software. The computers feature in both labs has the latest hardware configuration from DELL in terms of processor, speed, memory and storage.

## Software:

1. Ms- Project
2. Microsoft Office Suite
3. SAP 2000 (Educational Version)
3. GIS Software
