Rector's Message

Welcome to Prince Mohammad Bin Fahd University (PMU). I believe the formula for our success is the diverse student body, faculty, and staff. We employ the best qualified faculty and administrative personnel who are well respected in their fields from many countries. We offer degrees in engineering, information technology, and business administration.

I invite you to explore PMU. Your decision to earn your undergraduate degree shows responsibility and initiative, not only to enhance your career, but to make life better for yourself. Since you have decided to become a part of our diverse student body, I want to assure you that we will be here to guide and support you every step of the way. Your success is crucial to our university. Welcome aboard!

Furthermore, I extend my sincere welcome to our new faculty members to PMU, and hope their experience will be productive and fruitful.

Welcome, Prospective Students!

Applying to college is an exhilarating experience, and we’re thrilled that you’re considering Prince Mohammad Bin Fahd University. We want to do everything we can to answer your questions, guide you through the admission process, and introduce you to PMU.

As our motto says “Making History...Building Leaders...” we mean just that. We are committed to making your education experience worth your time, and we believe in you to be the best in your studies, to develop your personal skills, and to become world-class citizens.

Dr. Issa H. Al Ansari
Rector

Dr. Nassar Shaikh
Vice-Rector for Academic Affairs

The “Geoscience Club” is a student organization which seeks to promote interest in geology, earth science, and geophysics, and regularly holds meetings, field trips, scientific seminars, and social events. It is also the goal of the club to establish interactive communications among students, staff, and faculty who are aspiring to become geoscientists. Club members assist surrounding schools by making personal visits in an effort to promote the Geoscience Club.

PURPOSE
- To provide technical & professional development for PMU student community.
- To have formal/informal networking and interaction within the university community & the larger community.
- To broaden the horizon of understanding with regard to environment, ecology, & land formation that can be compared to the present day conditions.
- Social networking with multi-ethnic communities.

BENEFITS
- Regular monthly meetings followed by dinner.
- Field trips (national & international).
- Seminars.
- Technical symposiums.
- Special projects and publications.

MAJOR ATTRATIONS:
- Monthly Dinners Meetings (serves purpose 1 & 2).
- Field Trips (serves purpose 3 & 4).

Dr. Issa Al Ansari invited to his office the newly elected Student Council which comprises of president Majed Al Khoul, vice-president Mohamed Al Jubeir and the members who were thrilled by this welcoming gesture. He welcomed them individually and collectively and discussed all matters relating to the rights and obligations of students to the relevant university bodies.

PMU Rector Dr. Issa Al Ansari urged the Student Council to take a proactive role on campus and help students with their issues and concerns. He further stated that the Student Council will have a unique role in building bridges between the administration and the student body. At the end of the meeting, he again congratulated the Student Council and wished them the best of luck.

Abu Khaled with the NEW STUDENT COUNCIL

Prince Mohammad Bin Fahd University's Newspaper - Male Campus -

September 2010
A sensational and active Open Day! It was full of co-curricular and extra-curricular activities, exhibitions, talks, clubs and organizations, speech contest, air show, colleagues’ participation, comedy show, games, authentic customs and traditions, water balloon throwing, soap sliding, and even break dancing.

The Division of Student Affairs organized this day, and aided the colleges with all the necessary logistical support and resources. The campus was buzzing with myriad activities and sessions. Parents, students, faculty, staff, and guests attended to be a part of this day.

The top administrators headed by PMU Rector Dr. Isaa Al Ansari, Vice Rector Dr. Nasser Shehidi, Secretary General Dr. Yousef Salem, and other administrators came to see the “Open Day” and toured all the activities and exhibitions.

Seven prominent schools participated in the speech contest that took place around 10 am in the Lecture Hall, and the contestants won iPhones and laptops and other prizes as well.

PMU’s colleges (engineering, business administration, and IT) honored students on Dean’s list, with the parents present. It was a momentous occasion for both the parents and their sons. One parent thanked this university for its commitment and the effort they showed in this event.

Food and drinks were available at various outlets throughout the day. It is a day we all should remember.

PMU’s students, student council, clubs members were so active throughout the day just enjoying themselves and having fun.

Fall 2010 Applications in Review

The Division of Student Affairs assumes a key responsibility for helping to create a positive campus environment that enhances and supports learning. We invite you to learn about the various programs and services we provide. Student Affairs offers commitment, encouragement, diversity, involvement, collaboration, recreation and leadership opportunities, as well as a few memories to every student at PMUI. Explore our website and stop by our offices. When you do, we hope you’ll find Student Affairs to be approachable, innovative, supportive and empowering.

Having noted that, the good news is that we received 1715 Fall 2010 undergraduate online applications, another record high, compared to last year’s record high of 900. We interviewed 1167 prospective applicants, and we accepted 1158 applicants.

The Division of Student Affairs will continue the path of success, and we count on you to invite your friends and family members to visit us and support what we do. We will continue accepting applications for admission throughout the year. It’s never too late to apply to PMU.

From the first to the last university we were received with warm and welcoming receptions. We were given a guided tour of all the universities in which they displayed their finest lectures. The PMU delegation met with all the departments, clubs, and associations and was able to share and exchange valuable ideas on issues pertaining to:

Campus life, leadership programs, types of scholarships, student exchange programs, clubs and societies, healthcare and counseling and career services including the alumni. This provided a good insight into the factors that influenced prospective students when choosing where to study. The visit culminated with an exchange of gifts and a bid farewell from both sides.

The views and thoughts of our students are highly regarded, so after each visit a group discussion was held with PMU student representatives to find out what they had learned and what they found most inspiring during the visit.

Towards the end of the excursion there was time to take in some of the bewildering sites of the cosmopolitan city. Beirut referred to as the “pearl of the orient”, is a city of diversity and difference with education as its ancestral tradition. Beirut has been destroyed and rebuilt seven times some say it’s the death-defying city, aside from all this, there is plenty to love about this immortal city, surfing like the phoenix from its ashes. It was a trip of invaluable experience and self-exploration.
Visit to Jubail Technical Institute

The Division of Student Affairs and in coordination with Dr. Nasser Al-Hushti arranged a trip for the students as a part of the planned activities of the course "Mechanical Engineering Lab II" at Jubail Technical Institute (JTI) in Jubail Industrial City, and the aim of the visit was to familiarize the students with some of the latest testing and training techniques and facilities in the institute. Furthermore, this visit has helped to foster the relations between PMU and JTI and the academic community at large.

Summer Internship in Switzerland

Six PMU students were awarded the Aviation Link Internship for the summer 2010. Aviation Link is a company located in Riyadh. Fawaz Al-Saleh, Murat Vekil Oglo, Abdullah Al-Dosary, Jassim Al-Hamias, Mohammad Al-Annami, and Jamal Al-Sawed received the Aviation Link Internship to Switzerland, which offers opportunities for students who are interested in aviation. The goals of the internship is to gain hands-on experience on the different technical prototypes and gaining new skills abroad.

The students spent two months in Switzerland and received hands-on experience and technical courses from AMAC Aerospace, which is an aviation company founded in Basel, Switzerland in 2007. AMAC was built on sound aviation knowledge, experience, and expertise, and has been actively working to become the world’s leading provider of private, VIP, and corporate aviation services. Students were given personal offices and received a stipend of $1,500.00 per month. Travel arrangements for the six students were paid for by AMAC Aerospace.

Fawaz Al-Saleh stated that, “This international experience is really not only valuable but also beneficial, and I recommend this experience to all PMU students.”

Did you know?

PMU wants every student to succeed; therefore, we offer many student services and information:
- Prep Program Tutoring Services
- Core Curriculum Support Center
- Academic Support Center for the College of Business
- Academic Support Center for the College of IT
- Prep Program Tutoring Service

The Prep Program Tutoring Services is a tutoring program designed to provide one-on-one assistance and small group support to prep students. It is staffed by tutors who are available in the core curriculum building S097 throughout the week Saturday through Wednesday.

Core Curriculum Support Center

Core Curriculum Support center is a tutoring program designed to provide assistance to all students in their subject core courses. Please visit this center at Room No. F-149.

Academic Support Center for the College of Information Technology (IT)

Academic Support Center for the College of IT is to help students with technology applications of information systems and technology to plan, analyze, design, construct, maintain, and manage: software development, systems integration, and data management.

This center is located in the College of IT, Room No. F-352.
Delegation from Ministry of Education

The Director of Student Affairs Mr. Omar J. Elmoosa and Public Relations Event Manager Mr. Arif Al-Douali welcomed a delegation from the Ministry of Education which included 42 students’ counselors and 84 students from different levels of education and from various regions and provinces to Prince Mohammad Bin Fahd University (PMU). Mr. Omar gave the delegation a detailed PowerPoint presentation about the inception of PMU, the educational philosophy, mission and vision, programs, and teaching methodologies.

Mr. Omar also briefed the delegation that PMU uses the latest technology in the classrooms and seeks to become a distinguished university in the field of higher education & serve the larger community by producing students who in turn become future leaders.

The delegation then took a campus tour to see the university’s facilities & saw the different models of classrooms and techniques used in teaching and learning processes. At the conclusion of the visit, the delegation was highly impressed by the teaching and learning theories adopted specifically the six competencies and the facilities and buildings which provide a positive learning environment comparable to those in advanced countries.

World Civilization History Class

Wednesday, May 12, 2010

Two Power Point presentations about unemployment and drug abuse were given by students of Lecturer Ahmed Nuriddin’s class in the open AHU from 12 noon to 1 pm. Students who presented gave detailed information and facts about these important issues: unemployment and drug abuse and how in fact they are interconnected. Students, staff, and some faculty members came to show support of this unorthodox type of class, and they were extremely pleased with the quality of the students’ presentations. Students clapped many times to cheer the presenters about their outstanding work.

“It was a really great turnout,” said Lecturer Ahmed Nuriddin who was impressed with the work of his students and their communication skills and their team work.

Campus Life in PMU is a unique experience! We offer a variety of things students can do during or between their classroom schedule.

**Recreational Facility**

Stocked with brand new pool tables, wall mounted TVs, ping pong, air hockey, and football.

**Game Room**

Stocked with 15 play stations (PS3) and Wii. It is the perfect place to unwind after a long day of classes. Located in the basement of the Department of Campus Life and the Clinic.

**Gym**

If you're looking to get healthy and fit, the gym is the right place to begin. The PMU Gym houses state-of-the-art exercise equipment, free weights, elliptical machines, treadmills, television sets, and a mineral water dispenser.

The PMU Gym is located in the end of campus by the soccer field.

**Men's Health**

**Health Guidelines in General**

Health, as defined by the World Health Organization, is a state of physical, mental, and social well-being and not merely the absence of disease or infirmity. It also includes spiritual well-being. All these components of health are interrelated and cannot be separated.

The living environment of a person also plays a vital role in his physical health. A lot of fresh air can work wonders to your health, and at the same time, a smoky environment or too much dust and even air-conditioning can affect you adversely in the long run. Mental peace and emotional well-being is equally important in maintaining a good physical health. You cannot be physically fit if you cannot sleep well or you have regular disputes with people.

Staying fit is the least thing that you can do to lead a happy and trouble-free life, as an unhealthy person would not only be troubled for family and his friends but he cannot himself be truly happy and also, he can not contribute to the betterment of the society itself. Physically fit individuals are the true back bone of the family and of the nation.

Maintaining physical health does not only include a workout regime or physical exercises; it also includes an overall change in one's lifestyle and behavior.

1. **BALANCED DIET.**
   - Diet varies from person to person depending on type of work he is doing.

2. **EXERCISE.**
   - Start slow with 20 minutes walking.

3. **REST AND RELAXATION.**

4. **AVOID SMOKING.**

**BMI**

Having a proper and stable height-to-weight ratio is commonly used indicator of physical health.
Meet Our Clinic Staff

Tips for losing weight:
- Consume no more than 2000 calories a day.
- Eat as you usually do.
- Spread calories over five to six smaller meals.
- Eat right and avoid junk foods.
- Consume 20-30 percent carbohydrates.
- Consume 30-50 percent protein.
- Consume 20-40 percent fat.
- Work out 3-4 times a week.
- Allow 6-12 repetition each set.
- Focus on squats, bench press and bent over rows.
- Weigh yourself at the end of a week.
- Drink plenty of water.
- Eat fresh fruits.
- Increase your fiber intake.
- Eat lots of vegetables.
- Take it easy on sweet things.
- Exercise regularly.

We are here to help!

As you may know the Counseling Department is a unit within the Division of Student Affairs, and the role of this department is quite immense. Our role as counselors is to help you understand and deal with academic challenges, social, and personal problems. We offer one-on-one interaction and small group counseling and develop and implement pragmatic strategies to help you succeed.

Your counselors Khalil M. Osman and Mohar Al-Fayez and we can be reached at 849-9745/9274.

We the counseling team want you to be familiar with these words:

Stress: Stress is the emotional and physical strain caused by our response to pressure from the outside world. Common stress reactions include tension, irritability, inability to concentrate, and a variety of physical symptoms that include headache and a fast heartbeat.

Attention-Deficit Hyperactivity Disorder (ADHD) is a neurobehavioral and developmental disorder. It is primarily characterized by the co-existence of attentional problems and hyperactivity, with each behavior occurring infrequently alone and symptoms starting before seven years of age.

Anxiety disorder is caused by the subconscious mind reacting appropriately during times of stress and by doing so, “learning” to produce anxiety symptoms even when there is nothing present to be anxious about.

Dyslexia is a learning disability that impairs a person’s ability to read.

Social phobia- social anxiety occurring only in specific situations, such as fear of public speaking.

“Learn to get in touch with the silence within yourself, and know that everything in this life has purpose. There are no mistakes, no coincidences. All events are blessings given to us to learn from.” (Elizabeth Kubler-Ross)
Clubs and Organizations

PMU is home to an outstanding clubs and organizations that we are so proud of, so we encourage students to explore the options and to choose a club or organization which they are truly passionate about. At the beginning of both the fall and spring semesters, the Department of Campus Life will sponsor many activities and events designed to help familiarize students with all that PMU has to offer outside of and in conjunction with the classroom experience.

If you are interested in starting or joining a club or organization on campus, you can get in touch with:
Mr. Omar Barooq at
03 849 9204 or
by email: oabarooq@pmu.edu.sa

Students interested in planning a one-time or short-term event or gathering may want to consider becoming a Campus Life certified club or organization.

COMING SOON!!

The Division of Student Affairs as always is committed to provide or design fun programs, and activities that will promote students’ leadership, research and communication skills. Therefore, we are starting up a TV Studio on the Main Campus. The main purpose of this station is to broadcast news every day in the morning.

At this stage we perhaps can’t broadcast live news; however, we can video tape the different events, activities, functions and news that take place in the different colleges, Academic Affairs, campus life and administration building so on and so forth. After that we will edit, render, and produce the video and send it out every morning to all PMU Campus. Of course this station will be run totally by PMU students only. A newsroom shall be furnished with an elegant news desk, a camera, a professional camera and adequate lighting...

This project requires commitment involvement of faculty members and students.

Hence, we are in search of faculty members to serve as advisors and students to fill following positions:

- Newscaster – someone who reads the news on TV.
- Newsman – a man who writes or reports news for a television.
- News writer – someone who writes news stories, especially to be read on television.

For those who are interested in this project, please email us at desertvoice@pmu.edu.sa

Under the encouragement and direction of the Division of Student Affairs, a group of students came up with an outstanding idea of opening a radio station. This radio station will provide a range of campus news, events and sport activities.

WE ARE QUITE ECSTATIC AND LOOK FORWARD TO THIS GREAT INITIATIVE TO BE IMPLEMENTED!

To get involved and be a member of this PMU radio station club, please see:

Message from the Director of Student Affairs

First, I would like to welcome each and every one of you coming through the gates of our university and hearing from you is as always interesting and helpful. You are embarking on an important stage of your life and the Division of Student Affairs is here to guide and help you as you learn your way around campus and become familiar with the myriad of programs and departments. The Division of Student Affairs is here to provide access to services that respond to your needs and to ensure your experience at PMU is as successful as it can be.

I would like to offer you some tips for this exciting journey:

1. Take responsibility for your own learning. In college, there is little handholding. No one’s going to remind you when your papers are due or urge you to do your homework every night.

2. Come to class. This is the most basic thing you need to do to succeed in college. Come to class every single day unless you have an extremely good reason not to go. Sure, now that you’re no longer forced to be in class, it’s tempting not to go. But if you don’t go, you’re not going to do well.

3. Meet with your professors. You will benefit a lot by asking them for advice. This is why they graciously scheduled office hours.

4. Familiarize yourself with the syllabus. A syllabus is a document that a professor writes and distributes to provide students with an overview of a course. The syllabus is usually distributed on the first day of class. It contains the following:
   - The course title and meeting times
   - The name of the professor and his/her contact information
   - Expectations and attendance policies
   - Topics and chapters covered
   - Test dates
   - Other relevant dates
   - Grading policy
   - Required texts and other supplies

5. Get to know your academic advisor. This is the person who will help you with course conflicts, adding or dropping courses, scheduling of classes for future semesters, declaring on majors and minors.

This person is a key resource for you — and should be the person you turn to with any academic issues or conflicts.

6. Get involved on campus. A big problem for a lot of new students is a combination of homesickness and a feeling of not quite belonging. A solution? Consider joining in — but be careful not to go overboard — organization, club, or sports team. You’ll make new friends, learn new skills, and feel more connected to your school.

7. Take responsibility for yourself and your actions. Don’t look to place the blame on others for your mistakes; admit them and move on. Being an adult means taking responsibility for everything that happens to you.

8. Seek professional help when you need it. Visit our health and counseling center. If you are sick or you feel isolated or depressed, please take advantage of the many services this center provides to students. You don’t have to feel alone facing these issues by yourself.

9. Don’t cut corners. College is all about learning. If you procrastinate and cram, you may still do well on tests, but you’ll learn very little. Beware of plagiarism and always show academic honesty.

10. If you encounter any academic problems, first you must see your professor and talk with him.

Omar El Moussa
Director of Student Affairs

PRINCE MOHAMED BIN FAHAD UNIVERSITY

Department of Career Services

Part-Time Jobs on-Campus

Your success is important to us! The Department of Career Services is readily available to assist you with your individual career planning and obtain part-time positions that are best suited to students’ majors, interests, and abilities. Interviews are scheduled in a variety of fields.

- Administrative and clerical positions
- Library assistants
- Campus Life assistants
- Tutoring assistants

To be eligible for part-time job on-campus, you must meet PMU criteria as per PMU Student Job Policy:

1. Job opportunities are opened for Saudis as well as non-Saudis.
2. Maintain a minimum 2.0 GPA.
3. Minimum 12 credit hours.
4. Student should not exceed 20 working hours per week.
5. Student should have specific job related skills.

6. Student should pass the departmental job interview.
7. Student should register with PMU Department of Human Resources.
8. Student will be compensated at an hourly rate of 15 SR per hour.
9. Student should sign in the departmental attendance log.
10. Student must give 1 week of notice prior to resignation.

Just for FUN!

BRAIN EXERCISE: BRAIN TEASER

Quick! Count the number of times that the letter F appears in the following sentence: “Finished files are the result of years of scientific study combined with the experience of years.”

Almost everyone guesses three. Why? It seems that the brain cannot correctly process the word “file”. The letter F usually makes the “p” sound, like in “fax”. However, in the word “file”, it makes a “f” sound. Somehow, your brain overlooks the word “file” as it scans for the sound of “f”.

A Man in an Elevator

A man who lives on the tenth floor takes the elevator down to the first floor every morning and goes to work. In the evening, when he comes back; on a rainy day, or if there are other people in the elevator, he goes to his floor directly. Otherwise, he goes to the seventh floor and walks up three flights of stairs to his apartment.

Can you explain why?

The Keys to Effective Writing

Writing is truly a sweaty business, and it takes a great deal of practice. Practice, practice. Writing skills are necessary for succeeding in college if research papers stress you out, keep in mind that writing is not just an end result, it is a process that helps you develop your ideas and think logically.

Get Started:

First begin by brainstorming topics, collecting information, taking a lot of notes, and asking a lot of questions.

Keep your notes and sources organized as you go.

When developing your topic, look for patterns and relationships. See what conclusions you can draw, try discussing your ideas with classmates or your professor.

A new perspective can help shake up your thinking, and keep your momentum going.

Organize Your Writing

Develop an outline to help you stay on track as you write, identifying your main points and your conclusions.

Keep in mind basic essay structure:

• Introduction: Tell the reader about the aim contents and conclusions of the writing.
• Body: Present the evidence and facts that support your idea. Use concrete and concise examples and avoid generalities.
• Conclusion: Summarizes the information and report your findings, conclusions or recommendations.

The Man in the Elevator - Solution

The man is a short stature. He can’t reach the upper elevator buttons, but he can ask people to push them for him. He can also push them with his umbrella.
Student’s Work
Interview

Major: Electrical Engineering
Classification: Senior

What is your overall impression of PMU?
Answer: My impression of PMU is positive. It is a very
good university, because it has many international
students and faculty. I like the diversity of the student body
which comprises from Saudis and non-Saudis. I have heard
of PMU in the local advertisement and I immediately
was known. I have attended the orientation of PMU, and I
was interviewed by the Rector Dr. Isam Al Ansari.

What is your plan after graduation?
Answer: I plan to work for two years, and then I
want to pursue a master’s degree in industrial engineering.

What is your hobby?
Answer: My hobby is to read plenty of books about engineering,
and I always search YOUTUBE for the latest inventions. I
tried to make the polygraph machine in a small proto-
type, but I am not finished yet. The project is still ongo-
ing.

My Favorite Place at PMU

Jasir A Alduhaiman Almaneai

CONM 1311 Written Communication
Dr. Ahmad Alsulaiman, Section: 101

Assignment 2: Descriptive Essay

Have you ever wanted to know why most students have
to visit the university’s cafeteria almost every day? It’s
where students can relax and do some assignments. The
clean environment is well prepared for students’ needs. It’s
where I go during my break time. PMU’s cafeteria is my favorite
place.

The first place I go to in the morning is the cafeteria. I
simply love the smell of coffee and the quiet peaceful
atmosphere. I breathe in the scent of freshly brewed coffee,
and the sound of students enjoying their meals. The
atmosphere is peaceful, with soft background music.
Although the cafeteria is small, it offers a wide variety
of options, including hot and cold drinks, sandwiches,
and salads. The service is fast and efficient, and the
staff are friendly and helpful. The cafeteria is well-
equipped with tables and chairs, and there is ample
space for students to work and study.

I also enjoy visiting the PMU’s library. The library
is a quiet and spacious room, with comfortable
chairs and a large selection of books. The librarians
are knowledgeable and helpful, and they always
try to assist students in finding the resources they
need. The library is well-stocked with books on a
variety of topics, and it provides access to online
resources as well. I find the library to be a great
place to study and do research.

PMU has a vibrant campus life, with a wide range
of activities and events. The campus is green and
beautiful, with many trees and flowers. The weather
is pleasant, with mild temperatures throughout the
year. The campus is well-maintained, with clean
pavements and well-trimmed lawns. The campus life
is fun and exciting, with a variety of activities and
events for students to participate in. I enjoy going
to the gym, playing sports, and attending concerts.

Overall, PMU is a great place to study, with
excellent facilities and a supportive community.

Campus Life at PMU

Assignment 2: Descriptive Essay

PMU is one of the best universities in the Middle
East because of its high-quality facilities and
innovative educational programs. The university
provides students with a wide range of services,
which includes academic and extracurricular
activities.

First, PMU has educational facilities. One of the
most notable facilities is the campus library, which
contains a vast collection of books and resources.
Students can access these resources to complete
their coursework and research.

Second, PMU offers many sports facilities. The
university has a large gymnasium, which
accommodates a variety of sports activities,
including basketball, volleyball, and soccer. The
university also has a swimming pool, tennis courts,
and a running track.

Third, PMU provides many extracurricular activities.
The university has a wide range of clubs and
organizations, which provide students with
opportunities to pursue their interests and
develop new skills. Some of the popular clubs
include music, theater, and dance.

In conclusion, PMU is a great place to study,
with excellent facilities and a supportive
community. I highly recommend PMU to
anyone who is looking for a great educational
experience.
